

Scamper Bag Puppet

You Will Need

white card stock
scissors
glue
paper lunch bag
(5½" x 3⅛" x 10⅝")

Instructions

1. Copy onto card stock and cut out the puppet pieces.
2. Glue the head piece onto the paper bag so the bottom of the piece aligns with the lower edge of the folded bag bottom. The squirrel's upper lip and teeth will extend below the folded edge of the bag.
3. Slightly lift the folded edge of the bag. Glue the lower jaw/body piece onto the bag so that the mouth aligns with the upper lip, and the tongue is underneath the lip and teeth. You will not see the tongue when the mouth is closed.
4. Position the tail on the backside of the paper bag, as desired, and glue it in place.
